

Total Frame Defense™

(Woodlife® 111 treating with acrylic primed protection.)

There's More Than One Way To Save A Frame

Composite bottom frames only protect the last few inches - Total Frame Defense™ is achieved by treating the entire door frame. Cascade Wood Products, Inc. now provides this total protection with a full immersion Woodlife® 111 preservative treating process (Woodlife® 111 meets IS 4-09 standards and is WDMA approved). By treating the entire frame top to bottom our product protects against rot/decay, splitting/checking, warping/twisting, and mold/fungi. If you have ever had a sticky door from a warped jamb, or had mold or mildew ruin the finish of your frame you know there is more to protecting a frame than just the bottom few inches.

The Industry's Leading Warranty Against Rot!

Offering full frame replacement and up to \$250.00 in labor, Total Frame Defense™ has you covered.

Total Frame Defense™
provides total protection
for the entire frame,
*Not just the bottom
few inches.*

Total Frame Defense™
provides an effective method
of controlling moisture for
the entire frame, including
jambs from 4 1/8" - 9 1/4" wide,
brickmould, mull posts and
mull casing.
